

DYNO BATTERY FOUNDED 1933

Battery Boxes GC2

*The bitterness of poor quality
is long remembered after the
fleeting thrill of a cheap price.*

Battery Storage Boxes

Dyno Battery offers high quality acid resistant polyethylene battery storage boxes for your convenience and most demanding applications.

These heavy walled boxes are seamless for complete containment. Durability and strength are improved by reinforcing ribs. Most boxes are notched both at the top of the box and the lid, for connecting cables.

Each GC2 box holds two standard golf cart size batteries (Dyno models D105 or D125 or, 8VGC). GC2 *Triple* is an 8D Box. **Now available GC2/4** (holds four GC Batteries).

For mobile applications, nylon web hold down straps are available to secure the box without compromising acid containment.

Dimensions:

Foot print of Base (Box only):

	Length	Width	Height
GC2 Double	15 1/16"	10 15/16"	12 7/8"
GC2 Triple (8D)	22 1/8"	12 1/4"	11 3/16"
